

FOR IMMEDIATE RELEASE

Alberta Energy Savings L.P. goes long for South Calgary Colts Football Association

Calgary, AB: March 02, 2009 – The South Calgary Colts Football Association (SCCFA) is once again the chosen receiver of a \$5,000 donation from Alberta Energy Savings L.P., an Energy Savings Group company.

Saddled with the challenge of meeting higher financial obligations in a difficult economy, the association will now be better able to tackle such costs as practice field rentals, game travel expenses, football equipment and, this year, moving locations.

“These funds couldn’t have come at a better time,” says SCCFA representative, Terry Swanney, citing the organization’s recent approval to move to the South Fish Creek Recreational Complex. “Our transition to this facility and development of our practice field and clubhouse there will require significant investment from our association. In this economic climate, the continued support of Alberta Energy Savings is even more greatly appreciated.”

The donation represents the third year Alberta Energy Savings has supported SCCFA as part of its commitment to the communities in which it operates.

“This is an organization that champions the values of teamwork, family and community spirit,” said Ken Hartwick, President and CEO, Energy Savings Group. “Our support is our way of helping the Colts harness the energy of youth.”

About Energy Savings Group

Energy Savings Group's business involves the sale of natural gas and electricity to residential and commercial customers under long term, fixed price contracts. Energy Savings Group serves natural gas customers in Manitoba, Quebec, British Columbia, Illinois and Indiana, electricity customers in Texas, and both gas and electricity customers in Alberta, Ontario and New York.

About the South Calgary Colts Football Association

The South Calgary Colts Football Association’s mission is to encourage, promote and develop football skills among young athletes in a safe, fun environment while educating them on the importance of teamwork, fair play and competitiveness in being successful.
